Abrahamson, Edwin William

1922 - 1991

DEGREE: PhD

DATE: 1952

PLACE: Syracuse

TEACHER/RESEARCH ADVISOR: Linschitz

studied photochemistry and spectroscopy of dyes and metal ion complexes, photochemistry of chlorophyll and rhodopsin, and chemiluminescent reactions; determined nature and reaction kinetics of intermediates formed upon photolysis of visual pigments; studied electronic energy transfer processes, esp. those involving singlet O₂.

1. Research advisor confirmed by H. Linschitz (**11Jan94**).
