Alberty, Robert Arnold

1921 -

DEGREE: PhD

DATE: 1947

PLACE: Wisconsin

TEACHER/RESEARCH ADVISOR: Williams, J.

studied kinetics of enzymatic reactions, esp. those of fumarase; investigated electrophoresis of proteins and determination of ionization constants of biomolecules such as ATP; derived integrated rate equations for isotopic exchange in reversible reactions; studied thermodynamics of the isomerization and polymerization of organic substances in the gas phase.

1. Personal communication (2Sept93).
