Emeléus, Harry Julius

1903 - 1993

DEGREE: DSc

DATE: 1929

PLACE: London

TEACHER/RESEARCH ADVISOR: Baker

co-discovered decaborane (with A. Stock); developed chemistry of ClF_3 , BrF_3 , IF_5 ; discovered CF_3I and other CF_3 substituted compounds.

FOOTNOTE: After obtaining his degree with Baker, Emeléus spent two years studying inorganic chemistry with Stock in Karlsruhe. Emeléus described this experience as the turning point in his career.
