Rayman, Bohuslav

1852 - 1910

DEGREE: PhD

DATE: 1877

PLACE: Prague Polytechnic

TEACHER/RESEARCH ADVISOR: Šafařík/Kekulé

studied chemistry of sugars (esp. glucose, rhamnose, and invert sugars), cholesterol, ortho-toluic acid, hexachlorobenzene, and haloaromatic compounds in general; investigated chemistry of tin, arsenic, and chromium.

FOOTNOTE: Rayman also worked for one year with Wurtz and for one year as Friedel's assistant.
